CAO - BDNZ

① Glorious Week, a poem

Summary: in face of the violent war between Germany and Russia, Britain; the 4 year-resistance of the Chinese people, the France's surrender to Japan, the economic military situation in VN and the world have become critical. In order to make a thorough preparation to restore our independence, the leaders have sent highly important cadres to Cao Bang province.

The cadres received very warm welcome from the population of Cao Bang who contributed materials and properties to the cadres, carried our speech deliverings and talks. Mass organizations also expressed their support to the revolutionary cadres, chanting slogans: fight France, fight Japan, unite with China! Quick independence to Vietnam! Support the leaders of our organization!

of Gratitude② Letter from High-level Cadres to Members & Population

When we were visiting provinces at the Organization's order, we were warmly welcome by brothers and sisters everywhere we went. We highly appreciate it!

The old people of "the Association of the Old for National Salvation", the kids of "the Asso. of Pioneers for N.S." met us with gladness, shaking our hands with joy. The women sisters stayed overnight to make shoes and embroid handkerchiefs to present us. This sentiment remains unforgettable in our mind. Brothers among workers, peasants, youth and population of ethnic minorities, all as one, are fond of us and loyal to the Organization and Leaders. We firmly bear in our mind the comrades is the self-defence unit, each

of whom was enthusiastic, energetic and courageous and well-disciplined and deserve to serve as the frame our our future guerrillas' units.

We wrote this letter to express our gratitude to the brothers and sisters in the place where we had stopped and also to ask for pardon from brothers and sisters in the places where we have not been to.

We wish brothers and sisters make considerable efforts to expand our organization and succeed in bringing independence as soon as possible to Vietnam!
