Support Democracy, Oppose Aggression!

China is fighting Japan. Russia is fighting Germany. If China and Russia win, it will be more favourable for us to drive Franco-Japanese out of our country and achieve independence for our country. Therefore, our people must support China, Russia. Forming a tight solidarity to fight France, Japan is the best way to support China and Russia.

While we are struggling, we should be aware that: we have friends all over the world, who are also trying their best in their struggle for democracy, against aggression as we are doing now. This issue only carries the news of the struggle that the newspaper has just received.
