① Women Sisters, Let you Unite!

When women were advised to organize association for national salvation, many women answered: the women are uneducated and weak, so we can do nothing to fight France and Japan. Why should we organize the associations? That question was a mistake, because the women are also oppressed and exploited by France and Japan as much as men. Are the women traders levied high tax by the imperialists? - Yes. In the urban areas, how are the women employees paid? Very modest, not enough for our children and ourselves. Are the suspected women tortured by France, Japan? - Yes. France, Japan not only oppress and exploit husbands, children, brothers of the women, but also maltreat the women, like the rapes in Hoi Phong and killing in Saigon.

Therefore France and Japan are the women's enemies, and the women must resist them, must help fellow countrymen to expel them from the country and quickly bring independence to Vietnam and freedom and happiness to the women.

But if the women want to fight Japan and France, they must have an organization and close solidarity. They should not be afraid of being uneducated or weak if they love their country. Let's ask: can the women advise their husbands, brothers to love their country? Can they learn in order to be able to read books and newspapers of the V.M.? Can they get information from the secret informers and report the news to the organizations? Probably everyone can. When the organizations fight France and Japan, the women can certainly help the guerrilla units, aid the wounded, provide with provisions, make clothes etc. The women can also join the self-defence units, guerrilla units as the Chinese women.

Therefore the women who have joined the Women's Association for N. S should try to expand the associations, the ones who have not joined should join now.

### ③ Domestic News: What are unmannerly French!

Recently France has spent 2,600,000 dong to rebuild the Saigon big prisons and only 100,000 dong to build the student hostels in Hanoi. They lied to us that: their purpose was to beautify our country, to enlighten our people. But we all know that:

1) The French build houses for students to teach them to become slaves.

2) If they really want to enlighten our people, why do they allocate only 100,000 dong to build the student hostels?

3) They build the prisons not to beautify our country, but to detain the patriotic revolutionaries.

4) The money allocated was made from sweat and tears of our people. So France has used such money to harm us. What unmannerly the French are! We must gather our strength to join the revolution to drive both Japan and France out of our country.

### ④ World News: Germany suffers A big Defeat.

In Russia: on central front, more than 1 million German troops with numerous tanks were driven back when they attacked Moscow. On the southern front, the Red Army has driven back the German troops more than 200 km, taking back Rostov, a very big city. This was the first big defeat of Germany since they attacked the European countries. This news has gladdened the people in the world.
