

Viet Nam Doe Lap

(Vietnam must be independent)

For the success of the uprising
Solidarity should be the first
important thing.

When we will carry out revolt.

(Answer to the youth)

In the last issue ^{the paper} ~~we~~ said:"As soon as all people unite, we
will wage the uprising."Recently, a group of young comrades of
Canton A has sent ~~us~~ ^{to us} a letter. In
general, it said:1. Now our people have not united
yet, that is to say we are still
weak but so is the Japanese.Then the revolt can be carried
out.2. As long as we become stronger,
the Japanese themselves may be
also stronger.3. If our people ~~do~~ ^{do} not completely
unite, thus we won't carry out
the revolt?The questions have shown some
good points:a. Our youth are so enthusiastic
that they want to carry out the
revolt at once.b. They read the newspaper
carefully, wholeheartedly studying
the matters but not have a
glance at it only ^{before} ~~then~~ put it
aside.c. coping with the difficulties
matters; they put questions at once
This is worth praising because
by that way they can make
progress soon.

We must understand that:

1. There are various kinds of
weakness. There ~~are~~ ^{are} ~~a~~ ^{one} kind of
weakness that grows stronger
and stronger, for example: a little
elephant. On the other hand,
there are weak ones ~~ones~~ that
become weaker and weaker, for
example: an old buffalo. If
now the little elephant is to
fight against the old buffalo,
it's surely defeated. But
some time later, the elephant
surely wins.Our people's nation
is like the little elephant and
the Japanese - the old buffalo.2. saying that as we become
stronger, the Japanese become
stronger too - that is to say
as long as the little elephant
grows bigger, the old buffalo
does too. It means ~~that~~ we
forget ~~this~~: the strength of our
revolution is surely greater and

and greater and the imperialism is surely weaker and weaker. There will come the day when it perishes.

3. saying that if the whole nation does not unite, ^{won't we carry out revolt?} ~~is that not possible?~~

It is incorrect.

If the ~~of~~ organization ^{realizes correct} ~~has~~ ^{good} policy and well done plans, if cadres know how to participate in activities, how to propagandize and to organize the whole nation will probably unite. Our people now haven't united yet just because we have not worked well, comrades!

4. We must remember: in the past, many revolts ^{have} failed because they didn't know how to unite all the people.

We must remember, when we consider something we must consider its past, its present and its future as well.

We must remember: carrying out revolt when not all people are united is just like eating fruits before they ^{are} ripe, it's funny.

It's good to carry out revolt as soon as possible.

But we must bear in mind three following problems.

Not

number one: ... to organize

number two: ... to organize

number three: ... to organize

Having done the three problems we will carry out revolt and we will succeed.

① Domestic News

1. Because Japan needs jute to make sand-bags and cotton to produce ammunition, so France tries to persuade our people to grow cotton and jute. The result is less rice will be grown and our people will have hunger. So France brings advantages to Japan and disadvantages to our people.

2. In countries like Russia, children enjoy going to schools. They do not have to pay for textbooks, for tuition and teaching. If they live far away from school, they will be provided a free meal.

But in our country, especially in Cao Bang, children have a lot of difficulties going to school, because of bureaucratic procedures, expensive paper and ink, contributions of rice, wood, money to the schools. That means even children have to pay taxes!

② World News - Major News Items.

1. Pétain has sold his country to Germany but the latter is not really satisfied. Recently Germany has brought a hunting dog to power and removed Pétain.

2. Japan - since the war started, Japan has not been bombed. But on April 18 at 2 p.m suddenly the American planes came to bomb. Unable to take precautions, Japan was caused a lot of damages.
