

Việt Nam Độc lập
(Việt Nam must be independent)

Terrorism is commonplace
The more they terrorise, the more
we are undaunted.

Fighting against terrorism

1. Terrorism in the past.

In the past 80 years, since the French invaded our country, they have carried out a policy of terrorism. They have done that in order to stop our resistance-struggle. The French have destroyed hundreds of our villages, killing thousands of our people. The French's ruling apparatus, consisting of Governor General, Residents to provincial governors, mandarins, village head men, prisons, concentration camps, soldiers etc, is only the instrument of the French's policy of terrorism. In the past 10 years, there has been several nationwide terrorist raids. The French used aeroplanes and artilleries to destroy hundreds of villages

; killing thousands of people, imprisoning thousands of others. However, they haven't been able to end our revolution. In fact, our revolution is more and more developed. Because bloodshed could only break the revolutionary ardency, ^{just} as the vegetation is lushly green after a shower of rain. Hence, the blood is the rain and the revolution is the vegetation. If one person falls, a hundred others stand up.

2. Why the French carry out policy of terrorism?

The robbers can't plunder the properties without committing crimes. The French and the Japanese are just like the robbers. They terrorise our people in order to exploit our country and to control our people.

They often terrorise our people as tiggers often bite man.

3. Should we fear terrorism?

We should not fear terrorism.

If we don't want ourselves to be the colonists' slaves, if we don't want our wives to be raped, if we don't want our properties to be plundered, we must unite with each other to fight against them.

We fight against them, then they certainly repress and terrorise us. We don't fear their terrorist acts. If we do, we will be their slaves forever.

4. How to fight against terrorism

(1) We must closely unite with each other in order that nothing can divide us.

(2) We must develop the revolutionary organizations. If there is a great number of the members of the revolutionary organizations, the colonists can't arrest all the members.

(3) To a ^{strange} unknown person, we must say, "I don't know, I don't hear, I don't see."

(4) Always be careful. When the terrorist acts are taking place, we must keep calm and abscond to somewhere else.

Revolution books, papers and documents must be kept secret.

(5) Being arrested, we must be brave. If we give ^{them} full information on our organizations, the revolution will be damaged and even ourselves can't survive. If we are brave, they have no proof so they must release us at last.

B. V.

Pioneers!

Among the group of 50 youngsters who have known Ngw-tu-kinh (The Five Books) by heart, Mr Trg is the the most ardent. He has helped 6 others know Ngw-tu-kinh by heart.

Among the group of 17 youngsters who have gone far on the mission of organizing, Mr Q.T was the most ardent. Therefore, the youth of village X - district L.S respectfully call these two comrades pioneers.

Thanks

Mr Q.T contributed 40 eggs
Ms N.P contributed 7 pineapples
Ms D contributed a chicken and a bottle of wine
