BAC CAN - CAO BANG

(1) Duties and Rewards

In order to advise members in Cao Bang to work more, the Tong bo V.M. has sent some medals (silver V.M. star) to reward to the places which are the best in accomplishing duties, it is called "the reward on occasions".

1. How to Give the Rewards?

(a) the places where there are good organizations, which is to say these are all kinds of organizations: Ass. of N.S., of the old, peasants, women, youth, pioneers and self-defence units.

(b) the places where there are most-developed organizations which is to say they have more members.

(c) the places where there are the best trainings, which is to say members get <sup>better</sup> military training, political training, <sup>more</sup> national language lessons <sup>and</sup> newspapers to read than other places.

(d) the places where duties are accomplished at best, which is to say the propaganda, organization and support to the newspaper are better than other places.

2. Why is it called "the reward on occasions"? On occasions means from this place to other, not the same place.

3. Who will keep the reward? The best village or commune of the rewarded district.

4. Old province district and new district: If the A district is long-organized, and B is newly-organized, so A must be bigger than B. So will A keep the reward for long? No, B will be given the reward in this case. For example, this month A has 500 members, B has 100. But next month A has 50 more new members (1/10) and B has 20 more (2/10), and B will be rewarded, because B is better.

5. Significance of the Reward: It is aimed at encouraging us to work.

## (2) Domestic News

1. Recently France has allowed soldiers and village notables to enter the regions of Maib and captured pigs. They paid for that sometimes, but only 5, 6 dong if the pigs were worth 10 dong. Now the French have begun to loot animals. Our people should notice.

2. In many places in the upperland, France force our people to abandon rice and grow jute and cotton, and each person has to give in 1 kg of fibre in the harvest. Who does not give in enough fibre will be fined.

3. In Thai Binh, because of the rice shortage, these people had to put aside jute and grow rice. Then the French forced them to uproot the rice and plant jute again. Who did not comply were arrested.

## (3) World News

Now Britain and America are quickly preparing to open the 2nd front. What is the 2nd front?

Russia is fighting Germany, it is the 1st front. Britain and America are planning to launch a surprise attack on Germany, it is the second front. So Germany will be stuck between the two big fronts, and Germany will certainly lose.

## (4) To Governor General Decoux

The poem condemns G. G. Decoux of surrendering Japan and exploiting the Vietnamese people, as Pétain.

## (5) Cadres who should be commended

## (6) Thanks to Supporters

## (7) Supports to the Newspaper

## (8) Communique of the V. M province committee

Membership fees of the Ass. for N.S collected will be divided as follows:

8/10 handed over to the superior cadres, 1/10 to the V.M committee of that level, 1/10 to the Ass. for N.S. to keep.
