

District S.R. has made much
progress
Other districts should do even
better

A glorious day of district S.R.

1. District S.R. has been well known for its revolutionary ardency. However, it wasn't well organized, so the revolutionary movement here didn't make much progress. In the past year, thanks to the Central Committee's leadership and the cadres' efforts in carrying out schedules, things have been improving.

One other day, the National salvation associations of peasants, of women, of the youth founded the Association of the district. Then these associations held a meeting in which they founded the Viet Minh of the district. During the meeting, the representatives were very enthusiastic and friendly to each other.

2. The Association members showed their ardency. The far-off villages sent letters of greetings and contributed money to the Association. The nearby villages presented chickens, rice, cakes, cigarettes, fruits... etc, to the Association. The self-defense forces guarded very ~~revolution~~ carefully.

3. The meeting adopted the following resolutions:

- a) The meeting expresses thanks to the Central Committee and the determination to complete. Everyone should try his best to win medals.

- b, A commission will be established to train more cadres.
 - c, Association members should learn the Romanized Vietnamese language.
 - d, Everyone should support the paper and reading groups should be established
 - e, To fight against terrorism
 - f, to make great efforts to develop and consolidate the Association.
4. District S. R. has made much progress. But there remains some demerits. ~~Some~~ Some cadres are untrained. Sometimes the methods of propaganda are ineffective. In several regions there are organizing troubles, and children haven't been organized.
- Will the provincial and district committees make great efforts for further progress!

Home news

- On July 30th, some people went to market, passing a Japanese soldiers' camp.

The Japanese soldiers rushed up to catch them. These people ran for their lives but one was arrested. The Japanese ~~so~~ hung him up side down and tortured him very brutally. They beat him black and blue. They poured water into his nose. They ^{used a needle to} prick his fingers! These ~~acts~~ tortures made him unconscious!

The colonialists plunder our money, ~~our~~ rice, salt, oil... They force us to be their slaves. They torture us unreasonably. They treat us worse than animals. How humiliated we feel!

- On September 3rd there was a bomb explosion in Gia Lam. As usual, both Japanese and Vietnamese soldiers suffered heavy losses but the authorities forced the papers to fabricate the reality.

They want to hide their weakness.

World news

- On August 31st, in the capital city of Czechoslovakia 11 persons were shot for their anti-Germany acts, in Norway a mandarin and 3 people were shot, in France 144 people were arrested by the German.

In the past 2 years, in the Germany-occupied countries there is repression and bloodshed everyday but the revolutions in these countries still continue. The people of these countries are more and more undaunted. They know that in their struggle against the enemy, terrorist acts are commonplace. When the enemy is weak, he is even more provoked in terrorising the masses. Therefore if we are ardent in revolutionary activities, if we closely unite, we certainly gain victory!

- In the past year and more, the Yugoslavian people have organized groups of guerrillas. These groups have fought against the Germans very vigorously, inflicting heavy losses on them.

Mandarin's words

Three mandarins met with each other.

They said we should tell the masses as follows:

(One) You must respect the French and the Japanese.

You must treat them well as your fathers.

(Two) You must believe in our words, paying capitation and taxes quickly.

(Three) You should ardently serve the mandarins.

(Four) When you have to see the mandarin, you should present the more silver the better.

No one loves the masses than mandarins.

Their exploitation of the masses and their repression of the masses are only just expressions of their love.

(Five) The revolutionaries fabricate false stories against

They say "The French and the Japanese don't love our people"

They advise Nung, Man, Tho, Kinh (ethnic groups) to unite with each other.

They advise the masses to fight against the French and the Japanese in order to regain independence.

Their say is only fabrication.

Don't follow their words because that only leads you to miserableness.

The masses are the people who have to suffer exploitation.

The mandarins are the people who should enjoy freedom and happiness.
