

V. N. D. L - No 141 - Oct. 21, 1942

CAO BANG - BAE CAN

A -

① Two anti-terror vanguard groups worth commending.

In the last two months of June and July, the mountain district L-S was terrorized! Throughout the district the organization members have been trying to oppose the policy of arrest of France and Japan. In H. canton in particular the local cadres had an initiative to summon the most resolute members to form 2 anti-terror vanguard groups. Their task is to explain to members and convince them not to fear terror.

The vanguard members volunteer to do these following:

- 1) to be calm, careful and secret.
- 2) try to explain to members
- 3) not to be afraid of hardships, dangers
- 4) try to accomplish the group's plan.

This was the first time the inhabitants of L-S were terrorized so the members who appear to be panic-stricken and dismayed are by no means few. In that situation, the mandarins and village notables have become more aggressive. They threaten the people for money, forced them to keep guard, sent soldiers to villages to search for revolutionaries. So the cause to fight terror was by no means easy. Even so, the vanguard members were deeply convinced that: if they comply strictly with the directives to fight terror which have been ~~made~~ elaborated by the provincial ~~part~~ and carried in the newspaper V.N.D.L, they will certainly succeed. Therefore they try to explain to members. The result ~~was~~ is that at present the associations in our region are not disintegrated, but have developed more strongly than ever before. All members managed to keep calm, to be determined and keep secret better than before.

Experiences of the two vanguard groups can be summed up as follows: 1) in face of the terror, the immediate task is to explain to members the terror; 2) patience is needed in explaining terror. Carefulness, boldness are also necessary

3) resolutely oppose to the tendency to stop or temporarily stop working; 4) be secret when working, be careful when arranging the work and training members to be aware of terror, which can facilitate the accomplishment of the work.

The V.M province committee expects other localities to follow the experiences of the two vanguard groups of the canton of H. is taking precautions and fighting against terror. These experiences show us that: terror is not frightful if we are resolute. On the contrary, the more terror France carries out, the more stable our associations become, and the more exciting the revolutionary movement will be.

V. M province Committee of C. B

② The title: "vanguard youth and peasants" awarded to 2 comrades HC and IT of K commune, L.S mountain district.

③ Domestic News.

- On Sep. 25, Gia Lâm was bombed again. Nearly 100 Vietnamese were killed and injured. Japanese also died in great numbers but they did not disclose the exact figure. At the same time in Lao Cai, the Chinese planes were flying at low altitude and fired by machine guns at the streets where the Japanese soldiers were stationed. Some of our people were also killed by the shelling.

- In Nguyen Binh France under Japan's order, forced each village to hand in some thousands of kg of rice to them. In the previous years, the harvests were good, so the people had enough food. This year, because of the drought, a lot of rice was damaged and looted by France and Japan. What should our people eat?

Japan and France are mercilessly looting properties.

Our people can no longer suffer. The fellow citizen must quickly unite under the V.M banner to expel France and Japan out of our country, to gain happiness for us!

④ World News

Russia - Germany on the central front Russia is still advancing. On the southern front, along the Black Sea German suffered big defeats, losing 2,300 troops in this only 2 days. The winter is approaching, Germany will face a disastrous danger!

Britain - Germany: the British planes have been attacking Germany and France by the 4-ton bombs, which are the biggest and most powerful dynamite in the world. This kind of bomb has greatly dismayed France and Germany.

⑤ Wife's Message to Husband: a poem.
