welcoming new year

The year of 1943 is coming, and it will bring about a new situation in favour of us.

In Europe, 300,000 German soldiers are being closely blockaded in Stalingrad, and some more hundreds thousand have been sent to driven back to the northern border. In Africa German troops have been forced back thousands of kilometres. Facing with the courage of the red army, alliance of England, Russia, America, and of ~~African~~ German occupied nations with Russia, German fascism must be defeated.

In Asia, English and American air forces have obtained the overwhealy edge, are attacking Japanese bases. China with active assistance from Russia is preparing to counterattack. In Europe, Germany collapses. In Asia, England, U.S. and China will gather together to attack Japan. And the National liberation in Japan occupied countries will explode, this will lead to the death ruin of Japan.

Germany and Japan die will lead to the death of their hench men

This situation is in favour of us. We ~~are~~ try to give great contribution to the struggle in order to strengthen our forces and ~~add the new forces~~ make it full. where there have been organizations we have to do anyway in order to

turn a resolute person into a part of the revolutionary bulward. where there haven't been any organizations, we are in the leading role in ~~motivating~~ ^{propagandizing} for the organizations, in order to persuade millions of people to stand on our side. when our forces is in full and steady and the opportunity comes, we shall stand up; carry out insurgence to oust France and Japan.

We try to fight in order to receive the year of 1943. We shall try to turn the year of 1943 into the year of our national liberation.
