① Who is the League?

Some people mistakenly think that the league is in charge of everything, so they lean on the league for everything like: having no rifle; the league will supply rifles; being suppressed by the French, the league will resist. Thus when the time come to fight against the French and the Japanese the league will fight, but they themselves just wait until the job has been done, they will enjoy happiness. That way of thinking is wrong.

1- Who is the league? it consists all who joint it.

Members in one part of the locality form a league. A member is one part of the league. In the league, those in charge are local cadres, especially Viet Minh Committee, then standing committee for national salvation. In the league, we are members, and cadres are also the member that we elected. So when an event occurs all of us, particularly cadres will take responsibility, don't count on "the league" and

2. Some people say the league means ranking cadres think that leaders are the person who will take the burden and solve everything happens in the locality. That way of thinking is also a mistake. Leaders are elected by common people and command the people. For example, at village level, conton committee is the direct leader for villages, giving them advice in solving village's problem, when it's necessary it sends men to village to give direct help to village cadres but problem in one locality will be solved by local people.

In short, from village to conton, district, province, county, country, each level will solve its problems.

Leaders from higher level will guide activities in locality but not do it themselves. Each member, particularly cadres must understand this article. Otherwise, they may asked higher level leader to solve problems in their locality's responsibility.

Because the materials made of matches have been used for gunpowder by Japanese, matches are very expensive and lacked. Even in Hanoi where matches are made, people have to obtain ticket for matches but to buy a package is very difficult and there have been blood shed. The old girls and children have to buy a package with the price of 2 ^{hào} or three. ~~Even though~~ however, the foreigners said that the number of matches in circulation will be reduced. Nguyen Bac has gone ^{middle} to villages, advising people not to follow a revolution. In many places people discuss that perhaps westerners and Japanese have seen that Germans are in danger, Germans are in danger means that westerners and Japanese are also in danger, they are afraid that our people ~~will~~ gather together to take the advantage of their dangerous situation to stand up, so they have hastily forced Nguyen Bac to do that. But nobody followed him. However a dying dog is still barking, and they probably are trying to carry out reconnaissance here and there in an attempt to investigate and arrest. Our organization are being kept secret, expanding and consolidating steadily, so they what can they do. ~~At~~ the day of insurrection they will know ~~when~~ we are, our people are not as stupid as they think.

Russia - German: a contingent of red army in the middle front are moving to the south to block hundreds of thousand of Hitler troops in Kabkaz. Along the middle front, the red army has gained a great victory. Hitler troops had gone back because of its great losses. In the South of Africa. Germany forces has been driven back 200 km back and lost half of its troops. In France: French are in extremely terrible situation. Further shortage of food and clothes has ~~caused~~ brought death to children the youth and old. On the market day, there ^{no goods} ~~is~~ nobody ^{no money} ~~with~~ and ^{no goods} in the market. There are only piles of rubbish, and a group of persons are digging to find anything to eat for the hungry. Food is not only expensive but scarce, a lettuce costs 1.20 FF. Because of the exploitation by German, ~~the~~ French ^{people} has to suffer such ^{our} ~~our~~ ^{equally} ~~our~~ poverty. Our people has been exploited by Japan and will suffer much ~~our~~ ^{equally} ~~our~~ poverty.

Condolence news
