

Why we must unite!

Recently, some one complaint that the French colonialists' repressing cruelty were consequences of joining in secret organization of his or that man. They said so because they don't understand why we must unite. For, each revolutionary organization's member should clearly understand ^{that} we must unite in four reasons as follow:

Firstly, the French colonialists and the Japanese fascists now oppress and exploit our one, they will do the same thing ten times later. What they write down each peasant's family's rice and buffaloes for? Working but they want to appropriate brazenly our people's property. What we must do? It's only way to unite in implementing empty gardens and bare houses. Not uniting, we only wait to death.

Secondly: Cao Bang province couldn't avoid war. Japanese fascist could come and Chinese troops could cross the border. At that time, thugs will revolt as much as bees and plunder property, killing people and rape women. What shall we do? It's only way to unite in implementing ^{a policy of} empty gardens and bare house. We shall be in death if we do not unite.

Thirdly: Now, we are preparing for insurrection. When the time come, who joined in unity, he will stand for the revolutionary front. Who doesn't, he has no way to go. If he stand between the revolution and enemy, it is extremely dangerous.

Fourthly. Our insurrection is absolutely certain to win victory, in a time when the French and Japanese were weakened and our force become stronger. After the defeat of French and Japanese our country will become independent one, our people will enjoy happiness. Who want independence and freedom, they must (unite in revolutionary organization) be in unity.

As you know, unity is advantage in four ways; first, for ~~the~~ country and second for the country. However, some one dare not to unite because they were afraid of the French and Japanese's terror. They are wrong. Avoiding their terror, they should ^{not only} keep secret and courage but unite one by one. Regional revolutionary organization doesn't know to keep secret and the arrested persons aren't brave. Those are causes of terror. Briefly speaking, if we want to exist, we shall have to unite and must keep everything in secret.

The Lunar new year (Tet) comes,
with an offer from Vietnam Committee
in H. Canton, S.S. province.

Dear comrades,

The Lunar New Year's Day (Tet) is coming, we would like to propose you some ideas for enjoying Tet as follow:

1) When the winter night comes, we should remember to all our comrades, who had laid down their life for our native land, to who are ^{secret} vactivists in the enemy's area to prepare for ^{our} insurrection. We must remember that our country is being invaded. We promise to devote all for our revolutionary organization. In the future, when our country become an independent and freedom one, we shall enjoy

our Tet more time happily.

2) Wishing for the Tet Lunar New Year's Day we shouldn't wish to feather our nest but wish to have more efforts in organizing and propaganda for our stronger organization and for our revolution sooner come to a successful end.

3) During the Tet days, when ^{you} visit to your closest relatives, brother and family, you should propagandize for our revolutionary organization.

Tet comes, while enjoying it, we have never forgotten our duties to fight ~~for~~ for the new country.

Home news

1. Recently, the French colonialist played an performance in some streets of Cao Bang province. They forced pupils to buy more than 1 dong of ticket. It's means they try to squeeze money from children. They are very callidish.

2. Japanese fascist forced the French colonialists to sign an economic agreement. It meant that the French colonialists' exploitation of our people is not enough for the Japanese fascist's uses. Therefore Japanese forced French to exploit our people more in order to supply for them. It is too dangerous to the Vietnamese people.

PEOPLE ANSWER MANDARIN.

Listening to the mandarin's addressing

people is none flying into a rage

They regard mandarin as a species of bad-manner
and shifty. Cao Bay people ^{have} known them clearly

~~that~~ while people is suffering many kinds of taxes
such as poll tax, yield tax... the mandarin ignored

and not helping them. There are many people
were put into Sonla cells but mandarin did not
save them, let them coming home to live and work.
On the contrary, they only talk perversely in benificity
for themselves but damaging people. People is

suffering all kinds of bitterness, poverty and hardship
why so! It's only fact that the French and Japanese
oppressed and exploited them heavily. Therefore, under
the Vietnam's organization's leadership, people should
unite to fight against them to save their life.
