

Review of the collection drive to support B.S. The collection emulation to support B.S. in C.B. gave rise to strong support activities in many localities. Large part of the meetings in support B.S. were full of vigour. In some areas, the whole commune took part in the meeting in which not only association members but also non-members were attended. It was natural for the youths and mid-aged people to attend, but old people and children also attended. At the meetings, everybody listened attentively to the report on B.S. patriotic platform and actively donated to the collection.

Come forward to support B.S.
Commune 3, C Canton, D.R. district organized a meeting with about 70 people attended and collected in which over 250 post posters were collected. In this commune revolutionary activities are a bit more difficult to be carried out than in other localities, nevertheless the people here actively went to the meeting. Especially the women comrades

The collection drive to support B.S. brought about three fine results. First we actively collected money to support the patriotic platform in B.S. pub. S means we are preparing for insurgences to fight back Japanese and French forces. Secondly, the collection support has increased our potence, morale, and the fight of spirit of our vanguard army. Thirdly, the cadres and association members have learnt good experience from this collection campaign.

association have poor base and plain clothes. Cadres are not efficient. The cadres and association members in these localities must realize their shortcomings from this campaign, so as to redress their later actions. The fact that the meetings took place without adequate morale or with very poor collection, or the failure to hold meetings, or for the failure to hold meetings.

Review the collection campaign to support B.S., we draw these three results. However we also must criticize the shortcomings to be considered for later activities. a, a number of localities failed to organize the campaign properly. they failed to realize the aims of the campaign and didn't know how to make the campaign bring about good results in terms of spirit and money collection. That's why although there are active and hearty association members in those localities, but collections were poor. b, a number of localities failed to hold meetings or resulted in very poor collection. They were unable to hold meetings because these local

3, in conclusion, we can say that can say that can say that in the collection drive to support B.S. or in other agitation campaigns what can be completed or whether with the things done are good or bad or poor results or whether the results are poor or good are largely due to cadres. That is why in any localities, cadres must observe very carefully this drive to draw experience for later actions.

INTERNAL NEWS

1 Despite its recent presence in our country Japan has studied and tried by all means to take our country's natural resources. In all places of coal, metal lead, copper, Japan finds its way to take them all. If Japan stays in our country any longer, we will die.
2 How miserable soldiers recruited this time. These soldiers who are overtly tortured by the French do not know where they will be sent to death by the Japanese. The French say: 'You defeated during battles like the one in Lang Son, now you are recruited again. Damn you!! You will see that the Japanese will send you to death later.'

INTERNATIONAL NEWS

Russia - Germany: because of melting snow, muddy roads, no fierce fighting has taken place. In the North alone, Russia is still in offensive and gets triumph.
A Japanese officer said that Russia is very strong. Germany, even having rallied the strength of all Europe to attack Russia, is still defeated by Russia.
Northern Africa: Germany is humiliatingly defeated, being swept away from the frontlines by the British army and being pushed to near the seaside.
The US army has also taken over many cities. The German are great suffering great loss.
France: A guerilla group of the French Youth in the region of Tonong is enthusiastically fighting against the German. They destroy Germany's arms stores, making trains of German soldiers fall down, springing surprising attacks against the Germany contingents, thus dismaying the German. How well the French Youth do! What do the Vietnamese Youth think?

APPRAISAL

Our opportunity is coming. Our association's work is very plentiful and urgent. Therefore a number of comrades who are in legal status have sacrificed all for our association's work. Among them, comrade H.T. in village B. is especially deserved of appraisal because of his willingness to sacrifice his family for our association's work, although he and his wife must feed a lot their little children.

The Red Army (Poem)

The Russian Revolutionary Fatherland was suddenly attacked by the German. Russia is determined to fight against the German. All the country of Russia, all the Russian people are of one mind to fight against their enemy. The Red Army is very brave. The German will be defeated. Following Russia's example we, the Vietnamese people, must unite to fight against the French the Japanese. If we are of one mind, our revolutionary cause will success.
