① A Letter of the B.S National Salvation Army

Dears comrades in B.C province and C.T province,
 We are the B. S National salvation army. We wrote this letter to express our thanks to all brothers and sisters who for the country have raised money to support us. From a pioneer who contributed some cents to a sonscions family which contributed 50 dong; from the commune which contributed some hundres dong; to the Mau brothers in the mountains, everybody has tried best to help us.

You have raised the money to help us because we are the army of our country, of our organization, which means the army of you our brothers and sisters. You have helped us because you want us to be strong enough to fight France, Japan, to bring freedom and happiness to the entire people. We understand that and we pledge to you that this time we will be enthusiastic, courageous and clever ^{ten} times as much as before to carry out our revolution successfully.

That is on our part. On your part, probably you are well aware that by your help to us is still not sufficient for the responsibility of a Vietnamese, a national salvation member. You should try to improve yourselves in all fields, to prepare in all aspects for the occasions to organize the national salvation army to fight the enemy. At that time you will meet us on the battlefields to fight the imperialists. That day will be the day of victory.

Please accept our regards and chant with us these slogans:
 Move forward to prepare for armed insurrection!
 Long live the Vietnam revolution!
