

▷ Communique of the Women's Committee of T. P mountain district

Women constitute half of the population. Under the iron heels of Japan and France, women have been oppressed as severely as men, even more severely than men. So women must together with men make revolution to fight Japan, France and recover independence for our country, bringing liberation and happiness to women.

In order to accomplish the women's task in this revolution, women must stir up a strong women movement. Therefore, members, cadres and the women executive boards in T. P. mountain district must do the following work:

1. Hold regularly conferences of women cadres and meetings of women to discuss the women's work.
2. Try to study and collectively promote production: each household brings up a hen and some neighbouring households bring up a pig.
3. Try to train the specialized women cadres who can take charge of women's work without men's help.

The women sisters in T. P. mountain district must ~~try~~ make every effort to stir up a strong women movement to guide ^{all} the women of B. C. province ^{now} and the women of the surrounding provinces!

Women's Committee of T. P. mountain district

The newspaper highly appreciates the call of the women's committee of T. P. mountain district and hopes women sisters in other places will follow that shining example.

The newspaper also realizes that a strong women movement is B. C. and C. T. provinces because the women has not yet been stirred up

2401, 15.00. 72/00. J.G.U.V
sisters these have not fully understood the particular work of women and especially because they do not have well-qualified women cadres to lead the women movement. So at present two things should be done: first, to identify the women's ^{special} work. Second, to try to train women cadres.

On the first point the newspaper assumes that the special work of women is to ^{implement} collective production. Women cadres and members must find all ways to organize collective production - in order to help the organization to do anything of its interest.

On the second point, woman cadres can only be trained by studying of national language, math... They also must train to do revolutionary work.

④ Against Terror!

The imperialists have again carried out terror. A few persons have been arrested. Soldiers are searching some localities.

Why were those persons arrested? Why do the soldiers go searching? Only because those brothers and sisters did not comply with the organization's regulations.

The organization prohibited them from carrying documents with them. But some comrades did not follow that advice.

The organization said that the suspected persons should not stay at home for the rights. But some comrades did not comply with that.

The organization prohibited the making of loud voices

when working, and secret must be kept. But some localities did not comply with the regulations.

Revolution is not afraid of terror. But we must take precaution of terror by remembering the following three regulations:

1. Keep secret. Documents must be kept far from homes. Conferences and self-defence training must be held in secret places. Much loud voice should not be made.
2. Surround reactionaries and spies stealthily. Localities must be guarded at nights. News of the imperialists must be informed at once between neighbouring communes.
3. Fearlessness is needed. If arrested, no information will be disclosed to the enemy.

The more the imperialists are dying, the more terror they will carry out. We need to be clever and quick to take precaution of the terror!

⑤ Domestic News

1. More than 20 days ago Hanoi suffered two terrible bombings. Some clothes storehouses of the French army were all burnt. It was said that those storehouses would provide enough clothes to the entire French forces in Indochina for 4 years. Because Hanoi has been bombed so heavily that the government has ordered the inhabitants to evacuate.
2. The oversea delegation has gone back to Yunnan after having a visit to the domestic revolutionary movement. Recently, 2 members of the delegation has flown to Chungking.
3. The pro-Japanese elements have been more active. In major cities they plan to organize a "puppet" government to wait for the time to become Japan's lackeys.

when Japan overthrows France.

④ World News

1. Recently, the 3 leaders of Russia, America, Britain - Stalin, Roosevelt, Churchill have met in the Iran's capital to make decisions on two issues: how to defeat the German fascist quickly and the solutions ~~to~~ to the political problems after the war.

The 3 leaders have decided to mobilize all their strengths to totally defeat Germany.

2. In Russia ^{until now} ~~at present~~ no major changes have been made. The Red Army is preparing the winter counter-offensive against the German forces.
