The more repression, the
French and Japanese
Imperialists make
the more efforts we have
to make

House-gathering.

In the past, in B.C
Province, Imperialists
forced our people to gather
houses once, but they
are not satisfied with
it, now they force our
people to gather houses
once more. They force
us to gather because
they want:

- (1) to recruit troops easily,
 - (2) to appropriate our people's properties
 - (3) to berse and repress our people -
- This time our people know clearly their wicked policy and pour resented cries on tears from every-corners of Cao-Bac-hang province. In high land, more hills than cultivating lands, our people have to go to valley to make lives. Now they drive these people in the valley to gather down the hills, they don't what to do to live. Most miserable is Mon ethnic.

Leaflet-spreading phases of Viet-Minh

Recently the British and U.S planes spread on all Indochina a leaf-let of Viet-Minh calling for the support, unity and preparation for armed struggle against France and Japan for the Independence of Vietnam.

The leaflet read as follows:

"Dear Vietnamese people! The time for liberation of our country has come. France has been weak because they have lost their country. Japan is facing mounted offensives by Britain, China and the U.S. They will become weak soon. Now we have to prepared enough forces, waiting for when Japan is exhausted we will hold armed uprising. At that time we will win. Only by armed struggle, we can bring happiness, freedom to our people and our country."

If we want freedom, Independence, happiness, we have to sacrifice all to carry a revolution

To the final Victory. we have good opportunity, but we have to sacrifice and ~~endeavour~~ endeavour to win victory. That opportunity is getting nearer and nearer. As long as Revolutionary movement is boiling, The French and Japanese ~~increasingly~~ increasingly repress our people, that is why we have to sacrifice more.

Dear Vietnamese people, Dear the old and the young! We are Vietnamese, the offspring of many heroes who had defeated enemy to save the country. This time to ~~take~~ we swear to comply with orders of the organization of Viet-Minh to realize following slogans:

- all people unite!
- prepare for armed struggle
- Fight against the French and Japanese

Main must live with
their burnt-over land
that is why they
~~are scattered~~
Scatter everywhere.
Now Imperialists
drive them into
villages ~~they~~ like
they kill them ^{after} House
gathering, imperialists
and their henchmen
force people to do
many terrible things
such as calling names,
interrogating those who
are absent and heading
the families of secret
cadres.

Their aim is to
force our people to
subjugate them.
What shall we do
then? We have only
way that is to do
revolution. struggle
against the imperialism

We can only live in peace
when they are totally
defeated. We must remember
that. Although they are
very barbarous, but we
are vietnamese who have
high determination to
do revolutions to the end.
we would rather die than
follow the way of imperialism sm

- Viet Nam Independence
- Independent Viet Nam alliance.

Against Repression

Recently, Mr B. Vi has sent to the Journalist an article about the experience against Repression. following is the main ideas of the article:

The more revolution develops, the more barbarous the Imperialism will be. Our associate member, especially cadres know that. But most of our members are in high land and have ever faced with repression of Imperialists so they may be flinched. So the duty of a cadre is to cleverly counter repression and keep the moral of members.

1, While there is repression, cadres must be close to the members to help them in every field. Cadres must pay attention to small and big work and arrange everything perfect perfectly.

2, try to preserve the moral of our members, don't let them flinch.

1, Recently, the U.S and Chinese planes dropped bomb on many areas of our country. Hanoi Saigon railway is destroyed heavily. The Hain Hong Bridge near Thanh Hoa province and other bridges are also bombed. Many railway stations, factories near Binh Luong are bombed. In Saigon many areas are bombed too.

2, France and Japan is getting more and more conflicted. Degaulle faction is against Germany and Japan. Free Frenchmen. Degaulle faction abroad seem wanting to unite with us to fight against Japan. They promised to return to our people many interests. if they are sincere and if it is in accordance with our interests, we will try to shake hand with them.

3, In recent days The Journalist receives news from near and far provinces reporting that Viet Minh movement,

Russia and Germany - The biggest victories of the Red Army are in two following fronts: In the north, the Red Army have advanced into Lat-Tam, in the South, the Red Army attacked deeply into Poland more than 150 km.

Yugoslavia: Yugoslav guerrillas are still winning over Germany they have disrupted many railways of important Germany.

Italy: In Italy, the British and U.S troops have mounted fierce attacks and advance more further.

In Pacific: Japan has lost some more islands.

Support for the newspaper. we have received a sum of money people contribute to the newspaper

to do harm to revolution. pay attention to everyone. if you find anything suspicious, you have plans to resist. you must be clever and resolute.

3) through probing, listening to the masses and attempts of Imperialism and their henchmen, you will find the way to respond quickly. If you are late you will be ~~de~~ miss the chance.

4) Cadres are leaders of the people, especially in critical situations such as during repression. Cadres must ~~make~~ clear that you are the guides. you must be in charge of difficult and dangerous work. even small work you also have to undertake. Only by doing that the associate members will believe in you and you are deserved to be leaders.

Some cadres did not fulfill their tasks and made some mistakes. So, please! members pay attentions.

is developing everywhere. Imperialism is very afraid of this movement, they are trying to repress the movement and deceive people. Although there are some areas people are frightened but in general, the movement is developing strongly. in future it will rise high and spread all over the country.
