Against repression

Cadre column

Imperialists increasingly repress revolutionaries. Many times, organizations repeat the reminding that because we are taking part in revolutionary work to eliminate them, the imperialist will repress us, although we will not abandon our work, we are not afraid of being repressed, we will not sit idly waiting for death.

Determination
power, imperialists
repress ruthlessly
and brazenly.
Our people are
somewhat shaken
(upset). Cadres
are the leaders of
people guiding
them struggle
against imperialists.

Especially at this time, the imperialism is getting weaker and weaker with every passing day, meanwhile the revolutionary movement is rising higher, armed uprising is impending and that means that imperialists will take more repressions. That is why we have to show our determination to carry the revolution and show our unsubmitted attitude toward the enemy repression.

Cadres must
be resolute
to fulfill the
tasks. People
are who some-
what shaken
because they
don't grow
alive to the
ideals of revolution. They
are not conscious
of Imperialism
as being our
deadly enemy
or mortal
enemy.

Against the wicked policies of imperialism

In recent months, the imperialist repression went further step by burning house, arrest innocent persons, confiscated property, and soldiers hunt down

where ever if we dont keep ~~secret~~ Secret,
 make noise and exposed to the enemy,
 we have ~~and~~ been repressed ruthlessly.
 in the repressed areas and in other areas
 are the people frightened by that Accident?
 No! No! never. being afraid of imperialist
 Repression, losing your spirit, ~~Can~~ you
 avoid suppression, house-burning, poverty,
 confiscation? No, absolutely no, ~~on~~
~~fact~~, the contrary, if you want ~~not to~~
 your house ~~burnt~~ not to be burnt, your
 poverty not to be confiscated and if you
 want to have freedom and happiness for
 ever there is only one way that is to
 take part in the revolution to the final
 victory. And now when we are fighting
 against imperialists, especially in this critical
 situation, we have only one alternative that
 is we try to brave to ~~endure~~ ~~suffer~~ hardship and
 sacrifices and wait for ripe time to take
 revenge. Clondestine - Ordre, if his house
 burnt and his ~~poverty~~ confiscated, his
 parents and wife lost their lives, does
 he mourn for them? he mourn very much,
 but how to turn the mourn into action,
 there is only way - actively take part
 in revolutionary ~~work~~. when we
 save the country you also save your
 family. if your relatives are mal-
 treated by Imperialist, do you complain,

if they ~~are~~
~~alive~~, survive
 we have to ~~diff~~
 if we want to
 survive we have
 to do away with
 them.
 Revolution means
 struggle. In
 recent years,
 revolutionary
 movements have
 been advancing
 forward favourably.
 Our member
 only see the
 favourable side
 and feel that
 revolution is
 easy work,
 there is no difficulty
 on the way to
 victory. That
 was not right
 feeling, it is
 very detrimental
 to revolution.
 Revolution is
 never a easy work
 we have to fight
 back ~~two~~ imperialist
 although they are
 exhausted now

The revolution? No you should not do that. These unfortunate people endure sacrifice for the country. Our country has such persons that will help us quickly win victories.

2) Don't be deceived by imperialist

Beside their above-mentioned wicked policies, they have policy of persuading and advising you to work industrially. They persuade you not to go with the revolution. They make attempt to lure the suspected persons to give themselves up. We have proverb saying "Sweet make flies dead". The imperialists also use sweet words to lure our cadres run to their side and then arrest and kill these deserted persons in Long Son and Ban Bang. This time if we don't pay attention to their attempt we will be trapped.

3) Conclusion. Imperialism will always be imperialism.

They are enemy of the people and revolution. They will brutally repress revolutionaries, but we are not afraid of them. Don't believe in their luring words, our survival way is revolutionary way to overthrow them. This way is becoming more and more difficult but it will

They are still strong to repress revolution and people. Thus our cadres are determined to sacrifice and strive for victory. We are ready to stand hardship and sacrifices. If any one lack that determination, he is not revolutionary cadres.

Revolutionary way. When imperialists repress and people are shaken, it feel ~~Empire~~ seems as if imperialism is strong and revolution is too weak to attack the imperialism. People lost their moral because they don't understand the situation of the world and they don't know that in our country we are about to eliminate imperialism.

lead us to freedom and happiness. We have no other alternative. That is we resolutely determine to forge ahead.

if you stay on the Hill for some time, you feel not convinced they have done the hill again to give yourselves up. In some areas, it is not requests of the Imperialist, they don't know who is who but people just follow each other when present themselves. That surprises imperialists, sometimes that make them too busy they have to expel people.

3, recently, Viet Minh leaflets spread by the British and American planes have great impact. Imperialists are frightened, they sent their speakers to areas to ~~talk~~ ~~badly~~ make bad speeches about revolution - At times, they said, Britain and the United States now become their alliance. They said Britain and the United States never help us for nothing.

In short, they talk not logically.
