SPRING and Youth (poem)

Be proud my youths, even a little!
 impressed with future, being a hero.
 who else will set up a common life?
 who, at present, is able to shake off
 this bitter and tedious regime?
 and this vicious and greedy life?
 Only us - the supper youths.
 entrusted with heavy task of changing the world.

Carders' Collection

Contribution on Tet

During this year, members have made many contributions. This paper, in particular, has received no less such contributions.

We are poor because we are being ripped off wealth by the French and Japanese. In recent years, however, we have often made sacrifices for contributions to support organizations. Such sacrifices are much appreciated!

This paper knows that, but on this Tet occasion ~~this paper~~ it wishes to avail itself to appeal to sisters and brothers for further contributions. ~~to become~~ First, because it very much want to receive the support of you and secondly it is confident that you are always glad to make a sacrifice for this paper.

Every household surely must have some money to spend on Tet, this paper, therefore, called on brothers and sisters to draw ~~some~~ ^{small sum} from that money to support the paper. For that reason you Tet may be ~~less~~ a little less happy but you are sure of supporting the paper. It is therefore this paper will gain a little more strength to expand, thus quickening our armed insurrection.

Preparation for Tet

- This paper earnestly asks the local Carders, especially the Vietnamese Committees and National Salvation Committees to jointly encourage their members to make contributions on Tet occasion: to give money and paper.

If we couldn't do even they make big contributions. If many people, however, and all members make contributors they even each makes small one the sum of money will certainly be big.

Once again, this paper feels uncomfortable to call for sacrifices from you. But as ~~it~~ the common task, the work of the paper is considered as your own so we hope you would understand.

As long as the readers are concerned, this paper believe that this is understood to them and they will actively support this paper.

This work of contributions must be completed within Tet. In Jan. is must be over.

Col. 3: NOTICE by Vietnam Committee of C.T. Province

To sisters and brothers of C.T. Province and Q.T. Zone!

1/ Recently the imperialists ~~have~~ carried out roundups revolutionaries in every district of the province Ch. Tr. and Zone Q. Tr., Nam and Tho are not exceptions.

On most of their roundups were in vain. Some were have been caught but because they knew nothing or did not testify make wrong confession therefore ~~and~~ were released later.

Sisters and brothers in the Province and the Zone who are determined to fight against terrorism should bear in minds the followings: (1) Secrecy, (2) Strict vigilance, let each other know the whereabouts of enemy soldier if spotted. (3) Readers who are being suspected should take extra precaution. if necessary, go to work underground. (4) Once arrested must ~~not~~ testify nothing. Give them

the real informats.

Also appraisal work should be continued. Organ-

2- In their soundings of revolutionaries, imperialists
cheated the soldiers and people that they are arresting
bandits; they also cheat the non-numbered ^{the} that
the man are making revolution to take the Ho's lands.
We must be active to explain to the soldiers
know that revolutionaries are for the people, for
the nation; and ^{we} also must also explain to the
people that revolution is not meant to divide
Man and Tho but it unites all nationalities in
the fight to wipe out French and Japanese, and
that together we will enjoy large better on.

3- The French have good words for the people in
Ch. Tr. Province and Q. Tr. zone for handling tax
to them. But now they realized that ~~Man~~, ~~Tho~~
in the five districts have awoken up! The French
are very afraid indeed, they want to arrest revo-
lutionaries but we are resolutely against terrorism
thus making the whole 40,000 people revolu-
tionaries, united as one mind, then the French
and Japanese are certainly doomed!

Home News.

1. There have been news about padies and rice confiscated by imperialists at markets and ~~at~~ at people houses. In doing so, they propagated ~~that~~ against the revolution ~~and~~ so that for those who are not well informed and soldiers to hate revolution. As far as soldiers are concerned, they cheated the soldiers and push them against revolution. We, therefore, have to pay attention ~~to~~ ~~for~~ in our propaganda against the bad behaviour of the imperialists, and put more efforts in our work among the soldiers.

2. It seems that there are conflicts between French and Japanese. The French want to prevail over the Japanese as the latter seem to be getting weaker. The Japanese feels that the French are shaking and that the British and Americans are winning. ~~they~~ ~~are~~ want to kick ~~out~~ the French out. The more they are conflicted the more profit we will get.

3. Goods are getting increasing expensive. In some days we could see it change within a day. If this situation ~~continue~~ drags on how can we live?

The Japanese had decided to take Sangso so as to attack Sea Sa, the provincial capital of Honan but they were ~~def~~ bitterly defeated.
