endeavour to explain
newspaper for every-
one

Village besiege

Second Front

1- Imperialism once again besiege
strictly villages. They drive three or
four villages into one and surrounded
by fences and guarded by soldiers
stationed near-by. People are not allowed
to come in and out freely, if people
go (marketing) shopping they will be
escorted by soldiers. They do that
in aiming to repress people more
easily - people in besieged village
like prisoner in the concentrated camp,
they can arrest ~~every one~~ they like and
kill every-one they like. ~~There is~~
the other advantage is that they can
confiscate whatever they want, our
people have no way to resist

Hitler lying with hands
across his forehead,
thinking for days and
nights. Then he sent
his men by planes to
find the British and
American to explain
his attempt.

That "we are all
friends we have together
find ways to defeat
the Soviet Union". He
tries many times but
at last Hitler was
cheated. America and
Britain ally with
the Soviet Union to
oppress Germany.

2 - Village encirclement like that will
kill our people by repression and
by shortage of food because of
their confiscation. if they are not dead
by the two above-mentioned reasons they
will be dead by impossibility of cultiva-
tion.

The British and American
troops landed on France,
Hue-binh City soon
reduced to ashes;

Army and air forces
took this occasion to
launch offensive attacks

Gradually imperialism will lead our
people to dead ways. But our people
would rather will not sit waiting
for their death come on receiving
ruthless oppression - this time our

Camp city is being ~~occupied~~
occupied and the French
revolution ^{was} in danger
also take advantage ^{was}

The Imperialism.

together with Britain
And the United States
and defeat Germany
Fascists.

Following the ~~defeat~~^{↑↑} of
German, Japan is doom to
be failure.

Our people! quickly rise
up to overthrow Japan
Fascists.

Secret and Caution

- 1) In the past we were defeated because we didn't keep secret and be cautious. ~~Now~~ we still suffer defeats for not ~~keeping~~ secrets, especially in local areas where there are many complicated and reactionary elements, secret police - we have to pay ^{more} attention to keeping secrets. Sometimes enemy troops ambush us but we don't know that will be very dangerous in the areas which have reactionaries and secret police, we have to take precaution against enemy's attack and attempt.
- 2) Now, imperialists and their henchmen are trying to launch offensives against us, so we must take precaution, never keep weapons, documents and money in your bodies - just in case you meet the enemy.

World News

News inside the Country

Journalists' Explanations

1) The Second front has opened for more than a month. American and British Companies have driven German troops out of northern French front. Recently British and American troops have won two big victories: ① Cherbourg ~~battle~~, British and American troops encircled and killed 8,000 German troops stationing at Séc-bua port, many commanders of Germany have to surrender.

② - Caen battle: US and British troops, after some days of fighting have taken control of Caen city where Germany tries to entrench.

2) In the Soviet front, the Red Army launch glorious offensives. Their strategy is to encircle and kill the enemy troops stationing in important areas on the front. The Red Army can carry this strategy because they have more troops and weapons than the enemy. If German troops want to get out of the siege, they have to retreat hundreds of km. Recently, after occupying ~~Prisk~~ and Vitebsk cities, the Red

1) Recently, US planes dropped bombs on our country. In Cao-Bang province, the bombing on Trô ~~and~~ Lũnh has killed a lot of our people.

2) The British and US troops are advancing into France, German troops retreat, Pe-tank administration swung and in the other side of the city, Dô-lu government also swung. That is why the French in Indochina is finding ways to retreat. They are preparing dried food and finding peaceful areas to send their families there for "vacation".

3) Trôn Bình whenever he goes inspecting in backward areas such as Dông bãi, he often has very impolite gestures. In day-time, he dominates over people, but at night he forces his aids to bring prostitutes to "serve" him.

4) In the past, the Imperialism issued a newspaper in Cao-Bang. They published for sometimes, they have to close it because nobody reads them. Now they give Phan Thien, courier henchman, the right to publish & republish that newspaper. Who knows how he uses his wits?

1) Due to imperialist's depression, our activities must be in secrets. Clandestine cadres are not allowed to meet the associate members as before. And the Association documents and newspapers can not be distributed freely as before.

These are in at manifestations of dishonourment. The urgent task of local cadres is to restore the prestige and influences of the associate in less-conscious members.

2) If you want to fulfill this task, the urgent thing is to use the newspaper to show to members that our association still secretly operate and are preparing for ^{armed} uprising. Local cadres must alternately explain the newspaper for people everywhere.

but must pay attention to two things: avoid explaining to those who can't not keep secrets or not faithful ones. Secretly newspapers are not given to associate members, when they are very good because they may ~~write~~ unintentionally cause defeats.

V. N. D. L.

deeply into north-west front of Poland and taken control of Wilno city, then advanced forward near the East of Germany, nearly one-hundred km.

In Finland, the Red Army are advancing

3) In Pacific, naval and air forces of America gradually occupy many groups of islands near Japan and begin dropping horrible bombs on Japan.

In China, Japan has the points times to attack ~~Indou~~ ^{Indou}, the capital of Ho Nam province, with the support of the US Air forces, Chinese troops are actively attacking and will defeat Japan soon. At the same time, the eighth legion is attacking Japanese troops in Nienp-ka province and in many places in Man Ha. Japan now is in very critical situation.

Attention!

FOR those who support the newspapers, the Journalist will write letter of thanking privately because we have to keep secrets. When Cadres receive the Journalist's letter, please go explaining for our members, but keep the letter, don't give the letter to members.
